to baby's health must be taken before baby's birth. The child can have no more health than the mother gives it. A healthy mother, strong of body and cheerful of mind, will endow the child with her own physical and mental qualities. Many a wife who had dreaded motherhood because of past experiences of prenatal misery of mind and body has found a new era open to her with the use of Dr. Pierce's Favorite Prescription. It gives physical strength, soothes the nerves, and induces refreshing sleep. It gives vigor and elasticity to the organs, and makes the birth hour practically without pain or suffering. It enables the mother to provide a plentiful supply of healthy nourishment for the healthy child. It makes weak women strong and sick women well.

There is no alcohol in "Favorite Prescription" and it is absolutely free from opium, cocaine, and all other narcotics. Single women are invited to consult Dr. Pierce by letter free of charge. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I fully recommend Dr. Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, Miss Northumberland, Virginia. "I have a little boy who was born I took six bottles. He is a healthy child and has been born with a full complement of teeth. I did before in confinement. I substantially advise my patients to use the 'Favorite Prescription'."

Dr. Pierce's Pleasant Pellets are a pleasant and effective laxative medicine.

REBELLION.

Secretary Navy Under Cleveland Urges a Political Revolt in the South.

He Puts no Premium on Loyalty to Party in that Section of the Country.

Montgomery, Ala., June 28.—Ex-Secretary H. A. Herbert, addressed the Alabama Bar Association on the subject of "Duties and Responsibilities of the American Lawyer in the Twentieth Century." The constitutional convention adjourned in honor of his address, and the address was delivered to both bodies in the state capital.

He declared that "the country had entered upon the most critical period of its existence. In the time of national exaltation and exaltation, we must not be overconfident. It is easy for a few people of the same general character to agree. The country is no longer small or homogeneous. For self-government to be successful citizens must be alive to the increasing arduousness of self-control. Great cities are multiplying; vast masses of manufacturers are aggregated. The telegraph and press bring the whole country under the same exciting conditions that compel mobs of civilized men to do the work of barbarians."

"New complexities are arising Cuba, Porto Rico, Hawaii and Alaska and the Philippines demand solution. Shall we return them or absorb them? Shall we govern them or let them govern us?"

"Two perils assailed us prior to 1850 in our infancy. The Hartford convention threatened disruption and South Carolina attempted nullification. Since 1850 four crises have been passed—the civil war, reconstruction, attempted impeachment of Andrew Jackson, the Hays-Tilden contest."

"Reconstruction gave the ballot to the negro, and this led to the ballot box frauds in the South, where the ballot box had always been sacred. Fraud stalks through the land like a pestilence in the night. The line is imaginary between counting out the negro because his vote is cast for the wrong candidate, and counting out the white man because his vote is obnoxious. Honest elections are the only salvation of the country. Let all educated men proclaim aloud that except upon the basis of honest elections the natural outcome of republican government is discontent, unrest, instability and finally revolution."

PLEADS FOR INDEPENDENCE
The speaker turned to the remedy and declared it to be greater independence of thought and action, less slavish adherence to parties. The "yellow dog" theory of politics will not do. Worthy men must not surrender their power in party and state.

THE HOME GOLD CURE.

An Ingenious Treatment by Which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit. It is now generally understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodic attacks of intoxication, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

Wives cure your husbands!! Children cure your fathers!! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe to-day that discontinued drinking of their own free will. Do not wait. Do not be deluded by apparent and leading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Full directions and company each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of one dollar. Address Dept. 1, Edwin B. Giles & Company, 2339 and 2341 Market Street, Philadelphia. All correspondents strictly confidential.

to strickers. Every citizen must be a sovereign to act.

The power of the independent press of the north and south was dealt upon at length and its influence for good to the south in past twenty five years, was described. The Civic Federation in Chicago and the Academy of Political Sciences of Philadelphia were lauded.

Colonel Herbert declared: "We are in need of freer thought and freer action in the south. The time has come when no man should support the nominees of his party unless the platform and the man are such as he approves. If no party puts out a platform and nominees which a man approves he should reject them all. Let the parties understand that clauses put into platforms to catch votes will drive away intelligence."

Colonel Herbert especially emphasized the growing readiness to party revolt among the Alabama newspapers, and commended those which refused to stand by the party in 1896. He particularly urged activity in party primaries and nominations, so as to prevent the necessity of revolt at the election.

THE INSULAR DECISION.

He continued: "One of the greatest questions for solution now is whether the constitution follows the flag in the insular possessions. The turning over of the Philippines is an accomplished fact. Shall we govern them, or they us? Parties swapped positions on the underlying question. The Abolitionists Republicans, Garrett Smith and Charles Sumner, declared that the Declaration of Independence taught that all are free and equal. Now the expansion Republicans have the opposite view, which was held by the old Democratic leaders."

"Our Democratic friends in Congress, taking care always to quote from Lincoln, make the welkin ring with the views of the old time abolitionists."

The speaker discussed the supreme court decisions in the Porto Rico cases, and said the main declaration was correct, and he regretted it was not unanimous.—Atlanta Constitution.

Look! A Strich in Time
Saves time. Hughes' Tonic (taste pleasant) taken in early spring and fall prevents Chills, Fever and Malaria. Acts on the Liver, cleans up the system. Better than Calomel and Quinine. Contains no Arsenic, try it. At Drug Stores. Price and \$1.00 bottles.

DAVE WAS YOUNG THEN.

Missed the Chance of his Life to Get Rich While Out in Colorado.

Dr. J. F. Lightfoot tells a story on Col. D. R. Murray that is vouched for by a number of men who "were there." Many years ago, when Dave was in Colorado, a son of a millionaire miner killed a man and was put on trial for his life. About all that Dave was doing in those days was looking for a good thing and he was quite successful in that work. The lawyers who had charge of the defense took Murray into the case and finding him to be a "pet" sort of a fellow, gave him the leadership. The Colonel got into good shape and made the speech of his life, using up about a half day in his argument. The millionaire's only son was acquitted and there was general rejoicing in Pueblo. Col. Murray was young in those days and broke besides and when the millionaire asked the amount of his fee, David looked like a lamb and told him that \$300 would about do. A dollar looked like a circus ring to the youthful attorney and he thought he was striking pretty hard. The old gold miner looked foolish and then paid the bill. He was willing and expected to pay \$10,000. The other attorneys in the case wanted to hang Dave and some of his best friends thought they ought to have done so after letting Dave Fortune get away after knocking at his door.—Hawesville Platdealer.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. It afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that claimed of famous health resorts failed to benefit, have been permanently cured by its use. Bear in mind that every bottle is warranted and it does not prove beneficial the money will be refunded to you. For sale by Z. Wayne Griffin & Bro.

A Millionaire's Troubles.

Millionaires are supposed to live a life of pure delight and perfect happiness, and I guess all of us would be willing to stand the chances on their trials and worries to get their bank books. But in reading the inner lives of the moneyed ones, their lot is not an easy one to fill. We were reading the other day of Helen Gould who is no noted for her philanthropic work. The article was telling how the poor and needy—the greedy appeals and demands for aid. Churches requests through the mail in one week amounted to 17. Twenty-three charitable institutions appealed for help, eight educational institutions and no less than 143 individuals, all of whom wrote they were on the verge of starvation. Many who write warn the heiress that unless aid comes immediately the writers would have to end their misery. This puts

MANUFACTURERS.

No Tariff Agitation, but the Right Sort of Reciprocity is What They Want.

If there has at any time been any room for doubt as to where the Manufacturers' Club stands upon the question of the maintenance of a Protective Tariff, the action which that organization has just taken removes it, and leaves no pretext for any further misrepresentation upon the subject. By a unanimous vote the club has placed itself on record as opposing any modification of the present Tariff, or any agitation to that end, and as favoring the policy of a judicious and mutually advantageous reciprocity.

This agrees precisely with the view of the question which was recently presented by Mr. Theodore C. Search in his capacity of president of the National Association of Manufacturers, and upon which we took occasion at the time approvingly to comment. Mr. Search, in his address, advocated the extension of the principle of reciprocity in accordance with the program long ago, at the instance of Mr. Blaine adopted by the Republican party, and at this time warmly favored by no less a person than the President himself.

What Mr. Search said was promptly seized upon by the Free Trade papers and construed by them as an indication that the Protectionists were preparing to abandon the ground which they have always heretofore occupied, but of course there was no justification for any such interpretation. In the same speech Mr. Search had been careful to reassert his unabated loyalty to and confidence in the Protective policy and his unshaken belief in the necessity for its perpetuation. He deprecated the Manufacturers' Club has deprecated now, any modification of the Tariff or any agitation looking in that direction, and he pointed out that, so far from the Protective system being incompatible with the enforcement of the policy of Protection, it furnished the only basis upon which a reciprocal arrangement could be established.

That is the view which has been embodied in the resolutions which the Manufacturers' Club has now adopted, and it may be hoped that hereafter the position of the manufacturers of Philadelphia upon this question may be neither misrepresented nor misunderstood. They are opposed to the opening of any agitation upon this issue. They don't want the Tariff changed, and they don't want any talk about changing it, because they know how instantly and injuriously any such discussion affects the course of business. At the same time they appreciate the importance, and indeed the necessity, for retaining and extending our hold upon the foreign market, and they are heartily in favor of opening "our markets on favorable terms for what we do not ourselves produce, in return for free foreign markets." That seems to be sufficiently explicit and intelligible.—Philadelphia Inquirer.

A Cure for Cholera Infantum—Never Known to Fail.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for the house, and told him I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. a heavy responsibility on a body, for it is hard to know the worthy ones. Some of the requests are amusing. There were some who asked for Miss Gould's old clothes, one begged for a watch, one asked for tickets to some entertainment. Three asked for bicycles. Of these letters very few asked for the influence of Miss Gould to help them secure positions. It was outright money—or its value—they ask for. In one week the number of communications opened by Miss Gould and her secretary, numbered 1819.—Exchange.

ICE CAVES.

One Out in the State of Arizona Which Supplies Ice for Summer Use.

Several years ago a man who was wandering over the lava fields in the pine woods, nine miles from Flagstaff, discovered a narrow slit in the lava which appeared to lead into a lateral and much larger opening. The slit was wide enough for a man to squeeze his way into it. At the bottom, about 20 feet from the surface, a low chamber opened on one side which was found to extend about 300 feet. At the further end the roof was high enough for a man to stand erect. It was in the month of August and a large bank of ice was heaped against the further wall, but the rest of the cavern seemed to be dry.

In the following March the cave was visited again and found to be a source of ice supply for the hot months of summer. The ice melts away as the summer advances, but early in the season there is a large amount, most of which is now utilized. The ice is split into large pieces, hauled to the surface with block and tackle and carried away by the carload.

In this hollow under the ground the cold air settles in the winter months, producing temperature below the freezing point. There are times during the winter when a great deal of water runs into the cave. This is frozen solid and as the water continues to flow in, it is added to the frozen mass until the cave is completely filled with ice.

There are similar ice caves in various parts of the world. One of them is in Iowa. The Ice Trade Journal recently published an account of deep crevices in the basalt near Ehrenbreitstein, Germany, where the air, even in mid summer, is below the freezing point at night and ice is continually forming.—New York Sun.

The Best Remedy for Stomach and Bowel Troubles.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of my note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form. No family should be without it. I keep it in my house at all times." For sale by Z. Wayne Griffin & Bro.

The Editor of the Virginia (Nev.) Chronicle calls himself a truthful man, and yet, with all show of sincerity, he prints the following: "A Wabasha old maid took out her false teeth and laid them on a chair on going to bed a few nights ago and some one slipped them away and left a horseshoe in their place. On arising in the morning she put the horseshoe in her mouth and wore it almost all day before she discovered her error."

GOOD MOVE.

Good Roads Convention Meets at Owensboro July 16 and 17.

The officials and citizens of Owensboro and Daviess county, having in mind the improvement of the roads and public highways and desiring to forward the movement in behalf of good roads, have arranged with the National Good Roads association for the construction of a mile of model road adjoining Owensboro by the expert crew traveling through the South, over the line of the Illinois Central railroad, under the auspices of this association. That the movement may have the best possible effect in this section, they have arranged for a Good Roads convention to be held in Owensboro on July 16 and 17, 1901, to which they cordially invite the people of Daviess and adjoining counties, of West Kentucky and Southern Indiana generally. At this convention addresses will be delivered by prominent speakers familiar with the subject of road construction and a practical demonstration will be given of road building applicable to the needs and ability of the people of this section. Among the speakers expected are President W. H. Moore, of the National Good Roads association; Hon. Martin Dodge, director of the bureau of road inquiry of the Agricultural Department; Mr. Charles T. Harrison, road expert of the Agricultural Department, and others.

Speakers of note in the state will also be present and a program will be presented that will be of interest to progressive people who are interested in the improvement of the roads of the state. Unusual opportunities will be presented for the gaining of ideas about economic methods of road work and the practical demonstration of road building will be of value particularly to road overseers and supervisors. In connection with the convention there will be a comprehensive exhibit of the latest designs in road-making machinery, by all the prominent manufacturers of the country. County officials are especially urged to attend. The citizens of Owensboro are preparing to give a free burgoon on one of the days to their visitors and in every way the occasion will be made pleasant and profitable to those who attend.

The railroads and steamboats have granted a one fare round trip rate for this occasion from all points within one hundred miles of Owensboro.

RED HAIR BLAZES.

Along the Line of Fame From Alexander The Great to Fitzsimmons.

Red hair and greatness go together. Sometimes the hair may be only reddish or sandy, but any tint in the direction of red carries with it a chance at least for fame. Take this list of men and women who were topped "with red or reddish hair."

Men—Caesar, Cromwell, Napoleon, Columbus, Alexander Talla, Shakespeare, Tasso, Jefferson, Paderewski and Fitzsimmons.

Women—Queen Elizabeth, Helen of Troy, Sappho, Cleopatra, Joan of Arc, Lucretia Borgia, Marie Antoinette, Mme. Racamier, Beatrice Carter, Sarah Bernhardt, Mrs. Leslie Carter.

Mr. Armour is said once to have remarked to Mr. Gunsaulus:

"Without sandy haired people the world would have been frozen to death. The giants and masters of trade and commerce are men of temper and many of the captains on great fields of war had hair redder than mine. The secret of it all is not to let things get so hot that there is danger of a conflagration."

Fowler and Wells, the phrenology experts, the men who made the old familiar chart plaster heads say:

"Red hair is an indication of ardor, passion, intensity of feeling and purity of character, and usually go with a sanguine temperament."

It is significant that the largest percentage of red haired people is found among the Irish. The Swede, Dane and Scott rank next in order. The lighter shades of red indicate that these characteristics are very intense. Red hair is besides likely to grow darker as age advances, which indicates greater strength and stability of character.

IS TRUTH "LOW DOWN?"
Last week we took up the record of Mr. Smith on the "Two Week's Pay Bill," and showed conclusively to every reasonable mind, that Mr. Smith, without cause, turned against his friend, the laboring man, and voted to keep him in poverty—a complete slave of the mine operators.

We do not know what he got out of voting for the corporations, but it is not logical to conclude, that as he had no interest in coal mining, he would have voted in the interest of the poor, hard-working laboring man, had there not been other powers that he focused on him? Our argument on his conduct stands approved by himself and colleagues.

In addition to what we said about the Legislature of '94 and its results, we took up the campaign from a Democratic standpoint, arguing that State politics had been ordered out of the campaign by the head of the ticket and approved by each of the sub-heads; our readers are advised as to what we said last week, and they know in the positive that we said not an unkind word about those calling themselves Democratic nominees. We just simply took up their conduct and the principles they stand for.

We cited facts, pertaining to the conduct of the members of that ticket, which facts were, or may have been, "Low Down." We simply called the attention of our readers to the manner in which the proprietors of the "Beckham procession" tried to inflame the minds of the citizens of the county, by flourishing paintings of various designs, but for the sole purpose of fanning the party passions to a flame of intense hatred. In doing this, we alluded to a young man—who perhaps knew no better—calling on name, who flourished the red flag in the "bull's face." Our statement in this matter was very clear. We abused no one, but simply pointed out the lines of Democratic procedure.

It is certainly not "Low Down" to say that this or that lady was in the

"Beckham procession." Indeed, we had no thought of calling into question the good name of a sweet woman, but to show who were instrumental in fanning hatred in the hearts of men over a foolish and idiotic affair, that ought not to be noticed by civilized Americans. We did not hope for our line of argument to please "Mr. Benton" and the Democratic nominees, for it is too hazardous for them. In answer to all we said last week about the conduct of Mr. Smith in the legislature and the principles for which they stand, "Mr. Benton" had mighty little to say. He is incapable of conducting a line of argument, but is excellent on abuse and the superfluity of "billingsgate." Following is his denial for Mr. Smith of the charges made against him last week for voting against the "Two Week's Pay Bill."

Below we give in full "Mr. Benton's" denial of his supporting the Goebel law, the assertions of Woodson and Watterson, the demand for the contest and the approval of its results, the revolt against the people and the disfranchisement of all Kentucky, as well as Jefferson, Johnson, Martin and Magaffin counties, the persecution of Caleb Powers, the parading of gambler Alvey, the Hopkinsville Asylum scandal, and the robbing of Gov. Taylor of his right of office.

In short, here is what he said in reply to our argument of last week:

"Low down, indeed, must be the character of a newspaper (and it is a reflection upon the profession to call it such) which, not satisfied with maligning the good name and reputation of every man who does not agree with its political course, must reach its foul tentacles out and beset with the mud of its venom the name of one of Kentucky's sweet daughters, whose only offense was riding in the Democratic procession which passed from Dover train to Hartford hotel. It is more than humane to give that to condemn the editors of such a sheet, who do not seem to be capable of realizing the odium in which their paper is held by the people."

Not one sentence of argument will be drawn from the Herald chamber during this contest, but the mean abusive, dead-drie, cant language and vile epithets, will be spread in abundance upon the head of him who has so repeatedly nailed to the wall, the author of "A. G. Benton." Did we malign the name of any in our last issue, kind reader? Do we malign the name of a man when we simply recite what he has done? If so, we will continue to revel in the malignity of facts and truth and when we err, call us down on the spot.

THE NEW MOSES.
Well, it is possible that a new "Moses" is coming into the Republican camp to dictate the party's course in the present campaign, to say what ought to be done and how the members of the party ought to vote? We learn from very reliable authority (?) that the Republican party ought not to introduce into this campaign anything that has transpired in Kentucky within the past two years. We are advised by a most excellent gentleman (?) that the present Republican ticket should be defeated because each of its members earnestly fought for the guarantee of the Constitution, and opposed those who would override earth, heaven and hell to gratify their insatiable lust for official honors.

We will presume to say nothing as to what the party ought to do; our argument also is its duty. We may be mistaken, however, we hope not, that the Republican party now desires to turn its back on truth and fairness to all, and be advised by a man, who is afraid of his own shadow; he will not attempt to defend, what he has made his conscience declare is right, when it has been assailed upon ever corner. The edict has been issued that State politics cannot come into this county campaign and this new "Moses" advises that it should be even so. "Al-lowe," says he, "me to conduct your campaign and we'll have no revealing of legislative records on Mr. Smith, our worthy Judge and leader will not be abused by having his political record aired; the other members of the Democratic ticket will not be held accountable for endorsing the affairs which have so humiliated Kentucky. In fact, if I could direct the campaign, the Republican organ would talk of the intense hot weather, how much a general rain would advance crops, how dangerous and unsound is a very bad case of the gout."

But before the party ventures on this course to certain death, may we not with perfect justice call, all attention to the fact that this new "Moses" is one and the same fellow as "A. G. Benton"? He is the same fellow who said: "It is our opinion, publicly expressed, that few

greater calamities could befall the citizens of Ohio county, than the election of Mr. Rogers to the judgeship which he seeks." Why? Because "he represents that element of Kentucky Republicanism which is not only odious but dangerous." What is that Republicanism, which is so "odious and dangerous"? Simply a strict belief in justice, a loyal submission to the decree of the people, in the advocacy of majority rule and the sanctity of the ballot, opposition to taking office by judicial force, and legislative force, and strict adherence to the Divine injunction: "Thou shalt not steal, thou shalt not kill."

Before hazarding its future for all time, we thought it proper to advise as to the qualities and characteristics of this modern Kentucky Republicanism. Republicans, are you ready for the change? Would "A. G. Benton" literature be acceptable? Be not deceived by what we may say, take his own record for it. He is directly opposed to a man serving as Governor, who was elected by 2,383 majority votes, and because a Democratic legislature "declared" that another was elected, and a Democratic court said: "I can do nothing. The legislature is all powerful, its acts though recorded in dead of night, in the absence of a quorum and by one without authority, must stand." If such a man would bring home to Republicans merited victory, if such a man would feed the minds of Ohio county Republicans on such food as he has injected (because she wouldn't swallow it) into Democracy's system, then we would recommend the new "Moses," "A. G. Benton," for the leader of Ohio county Republicanism. Beware of false gods!

Without a word about the nominee of the Democratic ticket, "A. G. Benton" consumes much of his space in urging Mr. Bennett to declare himself for a certain individual for U. S. Senator. This question is entirely with Mr. Bennett, and we are quite sure that he will not allow "Mr. A. G. Benton" to provoke him into a public expression. Were these questions put by a gentleman with the proper spirit in view, it would be quite different. Would it not be just as pertinent for "Mr. Benton" to ask his champion, if elected—which is an impossibility—would he support Judge Cantrell? "A. G." is quite a versatile sort of a fellow, always trying to dabble into things that are no concern of his. This week's very similar to the "A. G. Benton" product of December 12, 1900. If our memory serves us correctly, Mr. Jarman had some experience with the editor of the Herald last year, and the same fellow, under a new name, is engaging in a little more of his frivolity. The voters answered the questions last year and we feel perfectly free to advise our "A. G. Benton" to be patient, they will answer in due time.

You do not have to know them to make up your mind in the Superintendents race. A look, just a glance at young DeWeese tells every one that he is the man to guard the interests of the 9,000 children of Ohio county. He is a brilliant young man, self-made, and self-possessed, strictly sober, with principles of morals instilled into his being by a dutiful and loving mother. Oh, well, there "aint no use talkin'; Jim will be our next Superintendent."

Nor having been a mere straggler and camp-follower himself, Mr. Ragland was engaged in the hardest contest of the Civil War. Besides his own patriotic work, Mr. Ragland has sacrificed the life of a precious boy in the service of his country. Mr. Smith, what battle did you say you were in, and what did you say you did to merit the honors of a Federal soldier?

Even the friends of the "money bag" are open in their declaration for Cal. P. Keown. Nothing is more certain than the election of Mr. Keown and the entire ticket. The good people of the county will not sell out soul and body to the boastful Democratic money ticket and they will show them that no man carries their votes in his vest pocket as Mr. Smith said of Bartlett's people.

If Mr. Wade cannot even dream of being elected Jailor, how can he hope to be elected? Our dreams often follow continued meditation, along a line of thought. It is just as possible for a camel to go through the eye of a needle as for Mr. Wade to carry the keys to the culprit's door.

Mr. Godsey, what did you say you would have too do to remove the bad taste from your mouth, when you voted for Bryan in '96? Who-ee! wasn't awful!

It's not the work of "A. G. Benton" to be the assumed editor, but "Benton's" "Billie B." What do we mean? Why, the author of "The Last Ragtime Gem."

HARD BUMPS FOR THE GOEBELITES.

Justus Goebel Indicted for Procuring Jerry Kirtley a Job

And Drawing \$50 a Month of Kirtley's Salary—Means the end of Goebelism in Kenton.

Covington, July 1.—It has come at last—the day of rejoicing over the downfall of Goebelism in Kenton county. The death blows were given in the nomination of Former Mayor Rhinock for the Senate over Senator Harbeson, in the nomination of Frank Tracey to County Attorney over Joe Elliston and Henry Gausepohn, and in the indictment of Justus Goebel for procuring, and procuring, for Jerry Kirtley the office of City Auditor of Covington for an agreed price, to be paid in installments of \$50 per month. The indictment charges further that, pursuant to the agreement, Goebel did procure the office for Kirtley, and that Kirtley paid him the sum of \$400 on account, from and out of the proceeds of his salary as Auditor, no doubt. It was known at noon that Rhinock would defeat Harbeson, but it was not until within a few minutes of 4 o'clock that the indictment was made public property. There was some criticism of the fact of the withholding of the indictment until so late an hour, but it was right that that course should have been taken. Any other course would have brought on Judge Tarvin the odium of the charge that the indictment had been made public property for the purpose of influencing the result of the primary.

Whether Justus Goebel will, of his own free will and accord, return to us certain by what presumptions right the grand jury of Kenton has dared to make inquiry into his peculiar methods, or to meddle with his disposition of the offices and emoluments of Kenton county, in particular, and Kentucky in general, is of minor moment. His power is gone for good and all, and the day is different from the days of last year, when he deliberately ordered the Democratic Committee of Kenton county to nominate Harbeson to succeed his brother in the Senate, and read Rhinock out of the party, its immunities, rights, privileges and emoluments.

Last Saturday Rhinock easily defeated Harbeson, notwithstanding the latter's personality, his high standing and his ability as a lawyer. But Harbeson stood for Goebelism, and Justus Goebel stood for Harbeson, and the Democratic voters would have none of it. The campaign was carried on with all the amenities that usually mark campaigns in the home of Goebelism. Late on Friday evening an anonymous circular was distributed, charging Rhinock with all sorts and manner of crimes and misdemeanors, the principal whereof was his alleged connection with the Standard Oil Company. The circular called on all true Democrats to down the trust, in the person of its agent, Rhinock, and presented copious extracts from the New York Journal to show that the Standard Oil Company is a bad thing and an octopus of the first water. And no doubt it is, but it was not the issue in Kenton county politics.

The circular was hardly dry from the press when Rhinock, in a letter signed by himself, denounced the anonymous author as a liar, a sneak and an Ohio man. He said he could prove that the Goebels had stated openly that he should be defeated and Harbeson elected, even if it cost them \$50,000. He added that he was a Kentuckian, and proud of it; that he had been a friend of Senator Goebel in the lifetime of that gentleman, but that he had refused, and would refuse, to submit to the dictation of Ohio men—the Goebels, to wit—in public life or in private actions, and he appealed to the Democratic voters for their support. And they gave it to him, making blow number two to Goebelism.

JUSTUS GOEBEL INDICTED.
Covington, Ky., July 1.—The Kenton county grand jury returned a number of indictments Saturday, as announced in the late edition of the Evening Post.

Justus Goebel was indicted on the charge that he secured the appointment of Jerry Kirtley as City Auditor, and received \$50 a month from his salary of \$150 a month as compensation for the appointment. Goebel is a brother of the late William Goebel, a merchant of Cincinnati, but residing in this city. He is now in Phoenix, Ariz., with his family. He has been advised by telegram of the indictment.

Resolutions of Respect.
The following resolutions were adopted by Slaty Creek Church on the death of the wife of its former pastor, Bro. Edgar D. Maddox:

Slaty Creek Baptist Church, at her regular session for business, Saturday, May 4, 1901, appointed a committee to draft suitable resolutions of condolence and sympathy, expressive of her sorrow on learning of the death of the wife of her former pastor, Bro. Edgar Maddox. Therefore, dear brother in Christ, this committee, in discharge of their faithful duty, would present you with the following tearfully expressed words of sorrowful sympathy and encouragement.

WHEREAS, Slaty Creek Church has just learned of the sad affliction that has befallen her recent pastor in the death of his wife, and

WHEREAS, The Church realizes the burden of grief that presses on the heart of our brother, and

WHEREAS, That it is with pain the church has learned that the death angel has again visited his home and borne away the greatest boon given to man in this life, a faithful devoted wife.

RESOLVED, That the church extend to our beloved brother the most profound sympathy in this the greatest sorrow of his life.

RESOLVED, That she would point with the finger of hope to that beautiful city, the home of the redeemed—that everlasting city within whose pearly gates the pure spirit of her to whom he gave his most tender love has swiftly entered.

RESOLVED, That we bow at a throne of grace in behalf of our brother and petition the great Arbiter of the destinies of men to comfort his broken heart with an abundant grace and bring him safely to his Kingdom, where he shall not only be permitted to look into the face of that blessed Savior in whom he has so long trusted, but into the face of her, the fond trusting one with whom he had hoped to make life's journey.

Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Kell, of 707 Ninth street, N. W., Washington, D. C., writes as follows: "A few months ago I had an attack of acute Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who also was a member of the faculty of a leading medical college here. He told me to continue his prescribed treatment and I would get well. After having it fitted twice, I decided to continue his treatment any longer. Having heard of S. S. S. (Scott's Emulsion) I decided to try it. I decided almost immediately to give the medicine a trial, and after I had taken a few bottles I was able to get up and walk and very soon after that I had no use for them at all. S. S. S. having cured me of my Rheumatism, I am now able to do my usual work and my appetite has returned, and I am happy to be again restored to perfect health."

There are no opiates or minerals in it to disturb the digestion and lead to serious troubles.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

DMOCRATIC OBSERVER
Scores the Methods of Mr. Hicks in "Bulldozing" the Convention.

Openly Advocates the Nomination and Election of Ed Massie.

With due consideration of what has taken place in our recent district convention held in the Buford Magisterial District for the purpose of nominating a candidate for Magistrate, which resulted in landing Alonzo Hicks as the Democratic nominee over Judge Newton by a majority of two delegate votes, and in view of the methods used for the purpose of, and in securing said nomination by Mr. Hicks and his relative clique in boastfully declaring that they would support the Republican nominee if Hicks should fail to win as they did four years ago when Esq. B. F. Graves defeated Mr. Hicks' brother-in-law for the nomination for that office and caused a Republican to be elected at the final November election.

Four years ago that related clique professed to be true Democrats and very enthusiastic toward the ticket until Esq. Graves defeated one of their members for the nomination, they then changed and declared they would support the Republican nominee and labor to accomplish that end through the entire campaign.

After having succeeded in their revengeful scheme four years ago, they renewed, at our recent convention, the same old threats, and issued their former orders to the party. Further more, I am satisfied that Hicks is unqualified and is not competent for that office. Therefore, I wish to state in unmistakable terms that I am now, always have been in the past, a Democrat, and believe in true Democracy, and one who has never scratched a reason I cannot conscientiously, and

will not, support Mr. Hicks at the November election. I believe that a man of such an element as that should, be cast out of politics as soon as possible, as he has secured his nomination by threatening our party with defeat by his friends. I am ready and anxious to join hands with more than a score of other Democrats and support Esq. Ed Massie at the November election if the Republican party sees cause to nominate him.

I do not see as Mr. Massie does as to the party that would manage the affairs of the State and nation, but I do know him to be honest and true to his promise; and I do know him to be well qualified for that office and to have an opinion of his own, and if elected, I don't believe that any man or set of men could change him from what he thought was right. Therefore I consider it my duty that I owe to my country to give him my unqualified support. And if my non-declaration should mislead any of my Democratic friends, the darkness will disappear when the electors return are counted from this precinct, as far as Magistrate is concerned, and they will not have any trouble in locating, at present, several good Democrats, who see like the true

Much Reading for Little Money.
The New York World has got the cost of printing down to a minimum. Its latest issue of its monthly newspaper-magazine is interesting if from no other cause than that it shows the acme of "how much for how little."

The monthly World is a 32-page magazine with colored cover. Its pages are about the size of the pages of the Ladies' Home Journal, and it is copiously illustrated in half-tone. The illustrations are the result of the best artistic skill, added by all the latest printing press appliances, making a magazine unrivaled in the quality of its contents and its appearance.
Each issue contains stories of romance, love, adventure, travel; tales of fiction and fact; stories of things quaint and curious, gathered from all over the world; the results of scientific research, and editorial reviews. It numbers among its contributors the leading literary men and women of the day.

A feature each month is a full page portrait of the most famed man or woman of the moment in the public eye.
In collecting and preparing for publication the literary matter and art subjects for the Monthly World no expense is spared.

The New York World will send six numbers of this newspaper-magazine in receipt of fifteen cents in stamps. Address The World, Pulitzer Building, New York.

THE REPUBLICAN keeps an excellent stock of envelopes, letterheads, note-headers, billheads, statements, cards, etc., and prints them in the latest up-to-date style. Leave your orders for job printing at this office.

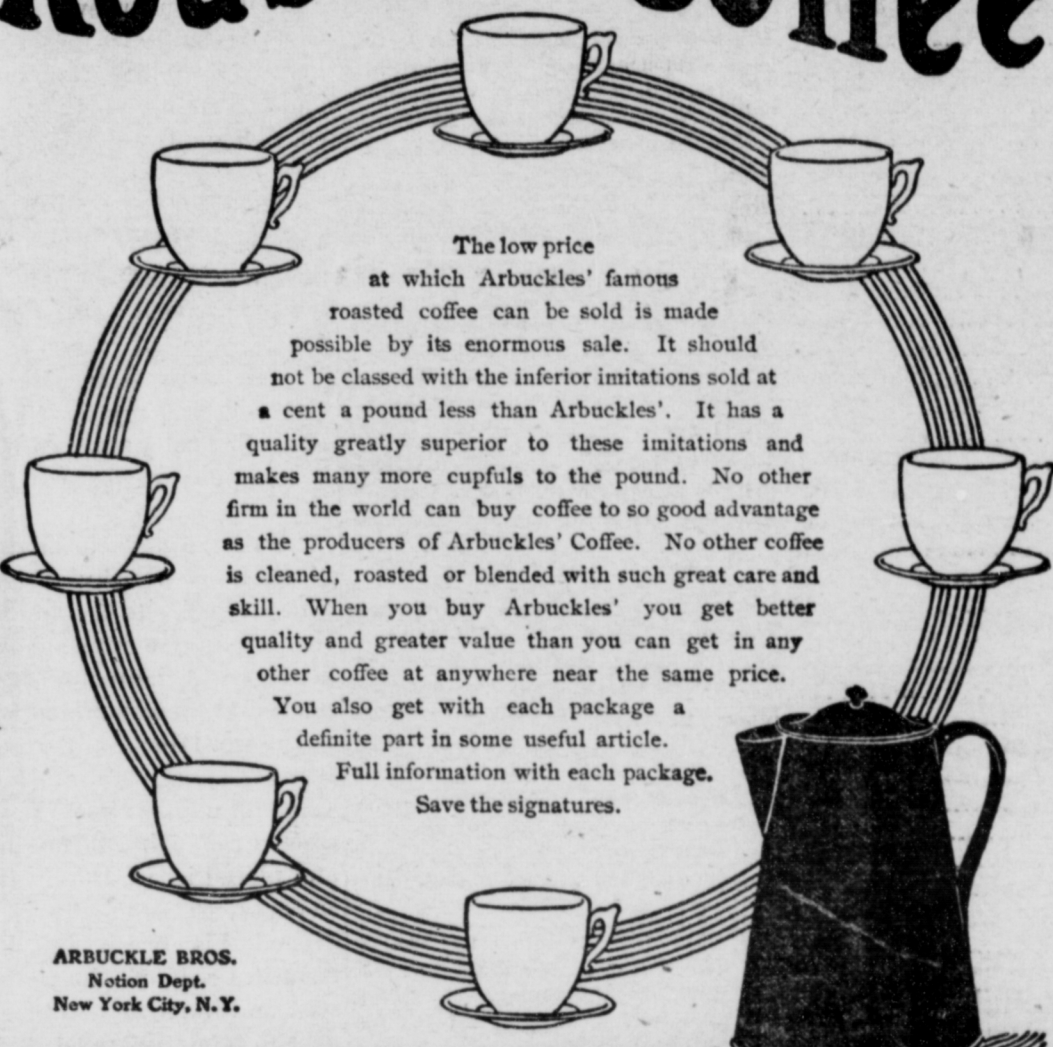

A WORTHY SUCCESSOR.
"Something New Under The Sun."

All Doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and speciality of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts. This wonderful remedy is known as "Snuffles the Guaranteed Catarrh Cure" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

Care ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve Hay Fever or Cold in the Head.
Catarrh when neglected often leads to "Consumption"—"Snuffles" will cure you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. 1, 124 W. B. Giles & Company, 2337 and 2332 Market street, Philadelphia.

Arbuckle's famous Roasted Coffee

The low price at which Arbuckle's famous roasted coffee can be sold is made possible by its enormous sale. It should not be classed with the inferior imitations sold at a cent a pound less than Arbuckle's. It has a quality greatly superior to these imitations and makes many more cupsful to the pound. No other firm in the world can buy coffee to so good advantage as the producers of Arbuckle's Coffee. No other coffee is cleaned, roasted or blended with such great care and skill. When you buy Arbuckle's you get better quality and greater value than you can get in any other coffee at anywhere near the same price.
You also get with each package a definite part in some useful article.
Full information with each package. Save the signatures.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.
Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.
Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet tell. Home of Swamp-Root, all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

RELIEVED WOMEN
WINE OF CARDUI
has brought permanent relief to a million suffering women who were on their way to premature graves. Mrs. Mitchell was fast dying in health, when Wine of Cardui performed a "wonderful cure" in her case. I had been a great sufferer from falling of the womb, incurable and profuse menstruation. The weekly appearance of the menses for two months had ruined my health. My system gave way. Then came the trial of Wine of Cardui and the cure. Mrs. Mitchell's experience ought to command Wine of Cardui to suffering women in words of burning eloquence.

WINE OF CARDUI
is within the reach of all. Women who try it are relieved. Ask your Druggist for a 50c bottle of Wine of Cardui, and do not take a substitute if tendered you.
Mrs. White Mitchell, South Gaston, N. C., writes of Cardui and The Wine of Cardui: "I have performed a marvelous cure in my case. I had been a great sufferer from falling of the womb and incurable, and my menses came every week for two months and were very painful. My husband induced me to try Wine of Cardui and Black-Raspberry, and now the menses have disappeared, and I am restored to perfect health."
